

# Lane Community College

Our Win Win Grant Experience So  
Far

10/25/12

What we  
thought Win  
Win would  
mean, in terms  
of more work, a  
year ago...

What we think  
of Win Win  
now...

# Win Win by the numbers

- Lane as Cognizant college = 766
- Initial review done by Siv Serene Barnum (who rocks!)  
32 hours to arrive at 116 eligible/potentials.
- Eligible for an AAOT = 11
- AAOT 2010-2011 Potentials
  - Missing Writing Only = 29
  - Missing Math Only = 32
  - Missing Both Writing and Math = 44

# Lane's Initiative Rich Environment

- Win Win is one of 14 Quality Progression and Completion initiatives just at Lane alone.
- All roads led to the same set of staff members being pulled into meeting after meeting to focus and support these initiatives. This challenged our time and efforts for Win Win.

# Lane's Win Win Audit Challenges

- Career/Technical students were in the cognizant group, who won't qualify for an AAOT.
- Associate of General Science students were in there and they only need lower division math and wouldn't qualify for AAOT.
- Students designated as Direct Transfer and just for a couple of classes, not planning on an AAOT.
- What to do with classes from sister institutions? All of those credits were misleading and these credits weren't in Banner.

# Messaging...

- Letters and e-mails going out to those who are eligible for an AAOT, missing Writing, missing Math and missing both Writing and Math.
- Marking those who were sent e-mails and letters in Banner so we can track who received these communications to see what worked.
- Awarding the eligible AAOT's automatically. Opt Out.
- Sending e-mails to the potentials based on their individual situations.

# What has Win Win done for Lane?

- Helped to change the river of our culture to supporting Quality, Progression and Completion by expecting that all students will earn a degree or certificate.
- Caused us to work with financial aid on policies and communications out to students as it relates to auto-awarding. Brought the financial aid issues to light.
- Started us on the path to auto-awarding.

# Next steps for the 650 yet to be reviewed...

- Categories
  - Out of state transcripts to be collected and reviewed.
  - Oregon University System transcripts and not having these courses, transcripts yet to be reviewed.
  - Run an audit for an AGS or AS or 2009 2010 AAOT
  - Students with 78 credits, but not 90. Do they have more transcripts from elsewhere?
  - Students with 90 credits and missing one or two main courses.

# Go, Tammie, Go!

## Thanks for being our Win Win Champion!

# Cat Herder Extraordinaire!
