DQP IT Conference Call

Regular Meeting: 4th Wednesday of every month

March 27, 2013

Website Update – Matt Danskine – DQP Web Developer:

I've been doing some spring cleaning and have started going through page by page to verify Section 508 compliance for accessibility. Turns out what needs to be fixed is mostly small stuff, so it's not requiring big, sweeping changes. Just a lot of time to go through all the pages.

The spidergraph is up and running and I'm working on adding Institutional Outcomes as well as adding notes to the application for those who may stumble across the website and not know what all the acronyms and things mean. I'm also still working on packaging the spidergraph so it can be released as open source. Also, if all goes well, I'll be able to take the data from the CCWD Webforms and import it into the spidergraph application so that the institutions can avoid having to do all the input.

The domain name (oregondqp.org) and secure certificate have been purchased and the website has been switched over to use them. I'm not sure anyone even noticed, so we must have done something right.
